

## COMMERCIAL PROJECTS

### LAWTON CITY HALL

On this project we had to replicate the stone features on the main entry of the building. The original stone feature dated back to the early 1900's.

On the right side you can see the "before" picture of the entry stone feature. →

← The picture on the left is the "after" picture, of the project, that was completed in 2011. The stone features on the main entry were replicated to match the old features exactly. The banding on the building was also replaced, and new decorative features were added.

### 130 N BROADWAY AVE

This is another project we worked on. The decorative cast stone features include: entry, window surrounds, veneers, key stones, wall capping.

## COMMERCIAL PROJECTS

### ST. EUGENE

The addition of cast stone features confer this project timeless beauty and classic elegance. The decorative cast stone features are: entries, banding, window surrounds, decorative medallions, crown molding and wall capping, planters and pavers.

## COMMERCIAL PROJECTS

### EXCHANGE BANK

Cast stone entry, veneers, banding and medallions.

### HERITAGE MUSEUM

This project features beautiful tapered fluted columns.

### LYNSEY BRIDGE

The Lindsey bridge has multiple decorative cast stone features.

Cast stone features are: veneers, cornerstones, wall capping, benches, and pavers.

## WALKER BUILDING

The decorative cast stone features include: entry, terrace, wall capping, medallions and other accents.

## GRAND AVE. PROJECT

This project on Grand Ave in Oklahoma City includes 2 beautiful highly ornate apartment buildings. There are many highly decorative cast stone features on these buildings.

Renaissance Cast Stone is a manufacturer of high quality cast stone, with many years of experience. With our full line of custom cast stone products, we strive to contribute to the tradition and timeless beauty of cast stone architectural detail.

This brochure presents some of the commercial projects we have worked on, and on which we helped create stunning decorative cast stone.

We have an experience of over 20 years in this field and we can create any custom structures needed to beautify your projects.

We will be happy to work on any new projects, as well as restoration and repair of older projects. Just let us know what you have in mind and we will make it become reality.

Renaissance Cast Stone partners with Architects, General Contractors, Mason Contractors, Architectural and Construction firms to create innovative designs while providing industry-leading product quality and service.

Architects have visions with every structure. These visions turn into innovative structures. Architectural cast stone fits perfectly into today's creative designs and need for cost effective, maintenance-free materials.

Renaissance Cast Stone's industry-leading quality cast stone products provide a unique look to highlight building designs.

Cast stone is a sustainable product in the growing green building environment and contributes to the green effort in a significant way. Cast stone is factory made, there is little waste in the manufacturing process, and it also reduces construction waste and debris on site.

Renaissance Cast Stone also has extensive experience in historical cast stone restoration.
